Elite Office Furniture UK Ltd

Recognises that environmental concerns are a crucial part of any business activity today. We are therefore committed to an ongoing programme of improvements to reduce pollution, and to reduce consumption of resources generated in the course of our business.

Active policies of recycling and reuse of waste are promoted wherever possible. We use UK raw materials, sourced locally and combine these with a specially designed logistics and distribution system which can reduce the carbon footprint of our whole range of products as much as possible.

This flyer gives a complete breakdown of the environmental facts in relation to this specific product.

Policy Statement

We care about the environment and not only recognise but appreciate that our operations may have an impact on the environment locally and ultimately globally. At Elite Office Furniture UK Ltd we believe it is our obligation to consider all aspects of our products' impact on the environment, throughout their life cycle: From raw material selection, right through to sustainable production methods as well as the reduction of waste and pollution in all aspects of our manufacturing process.

We are, and will continue to address the latest environmental issues through our ISO14001 Environmental Management System, which is under constant review and assessment so as to ensure that it continually evolves to suit the ever-changing needs of the environment we live in, our customers, the legislation that we must adhere to as well as our corporate needs.

We are committed to continual improvement in all aspects. This is reflected in our ISO 9001 accreditation, of which environmental concerns forms a substantive part.

Our commitment to the environment is also reflected in our stated aim to achieve the best environmental ratings outcome possible, for our entire product range.

Committed to ensuring environmental issues are considered in all Elite's activities and future plans:

- + energy efficiency
- + waste minimisation
- + reduction of transportation fuel
- + sourcing of timber products from managed sustainable forests
- + drainage protection
- + solvent reduction
- + minimising pollution
- + ensuring zero land contamination
- + reducing harmful emissions
- + minimising material consumption
- + promote recycling to our customers and suppliers
- + increase efficiency
- + purchasing from environmental friendly sources

Committed to reduction of:

- + global warming
- + acid rain
- + rain forest (deforestation)
- + loss of biodiversity

Eco Credentials

Recyclability	98%
Returnable Packaging	Yes
Adhesives	Solvent Free
Carbon Neutral	Yes
Climate Neutral	BS EN ISO 14001

Materials Breakdown

<u>Materials</u>	<u>Weight</u>	<u>Percentage</u>	<u>Recyclability</u>
Wood	29.28kg	61%	100%
Steel	16.32kg	34%	100%
PVC	1.44kg	3%	100%
Aluminium	0.48kg	1%	100%
Glue	0.48kg	1%	0%
