Ace

STOOLS

www.elite-furniture.co.uk

Designed by Claudio Bellini, the Ace stool is driven by the idea to rethink the one-shell chair archetype. Outlines of the plastic shell gracefully flow from the seat to the back and create a loop which gently embraces the back cushion.

Designed for the modern office environment and the broad target audience Ace provides extra comfort and advanced ergonomics. The open lumbar area and flexible back allow a user to sit in the most comfortable posture. Inner structure of the back cushion follows the body's natural movement and maximized flexibility.

Please refer to the price and specification guide for all available options.
