**CLIENT**  
Aalco Metals

**LOCATION**  
Southampton, UK

Aalco Metals selected Paperchain Partnership to design a modern and practical space with breakout areas, encouraging better productivity within the organisation.

Elite were approached during the consultation discussions with Aalco Metals. This early engagement meant their client were given the opportunity to visit Elite's showroom and select the right solutions for their business, prior to design layouts being presented, saving valuable time on the overall project.

The design incorporated Linnea double workstations and Vida task chairs for the open plan office space, Harmony Bench with Bill stools and Evo Modular booths for the breakout areas. Reflex boardroom tables provided an elegant surface for meetings, teamed with Moda meeting chairs.

Staff feedback was positive, prompting Aalco Metals to implement a similar design throughout their UK office network.

**CLIENT**  
Advanced Commercial Interiors

**LOCATION**  
Nottingham, UK

Pear Tree Yard was purchased by Advanced Commercial Interiors, following their successful growth and need to relocate to larger premises. When purchased, the building required significant renovations but had huge potential to provide ACI with a modern office and showroom, retaining its existing character.

When the building works were complete, ACI, having sold Elite products themselves, decided the interior required the quality of Elite products to finish the design to a high standard.

Lux benches were used to provide a relaxed meeting space, complemented by Moda meeting chairs. Progress Height Adjustable desks were used in the executive office, to take advantage of their sit-stand capability, while white Linnea desks with a black trim offered a contemporary look to the main office. Vida task chairs were used throughout the office area due to their functionality and comfort.

**CLIENT**  
Ameresco

**LOCATION**  
Leeds, UK

Ameresco is one of the largest independent energy service providers in North America and the United Kingdom, delivering long-term customer value and environmental sustainability through energy efficiency measures, smart procurement, demand-side optimisation and alternative energy infrastructure solutions.

Ameresco worked with Absolute on providing a turn key solution of fit out and furniture for their offices in Castleford. The project called for a fresh modern look that would enhance the brand experience for clients when visiting the site and, at the same time create an inspiring and motivating working environment for the staff. Absolute partnered with Elite to provide furniture that offered all of this and more, utilising our Matrix range and Lux meeting tables. The new Elipsa lounge chairs were incorporated into the project along with Bill stools in the breakout area. The finished project, as demonstrated by the imagery really shows the Ameresco brand in an up to date modern light.

**CLIENT**  
AMRC / University of Sheffield

**LOCATION**  
Sheffield, UK

Having successfully delivered the full furniture package for the purpose-built Factory 2050, the University approached Elite for a solution to their space constraints.

Since moving into their building in December 2016, the Department had expanded far more quickly than they originally anticipated and required the help of Elite to provide additional workspace to accommodate this growth and maintain a satisfactory level of meeting and social spaces.

Our new brief was to create various areas within the existing building to allow for flexible working without affecting the character of the building. After initial consultations it was decided that the Retreat Booth was the most suitable solution, as the provision of integral power, data, media and lighting coupled with the acoustic properties, that would soften the ambient factory noise, would provide staff with four additional areas to use socially, for both formal and informal meetings as well as utilise the internal media facilities to present their state of the art aerospace designs.

The final installation provided an exact solution for this intricate brief, without compromising too much space within the manufacturing facility. We were pleased to hear the university were delighted with the end results and the Booths are occupied daily.

**CLIENT**  
Associated British Ports

**LOCATION**  
Southampton, UK

Based in Southampton, Associated British Ports is the UK leading and best-connected port owner and operator. The network of 21 ports around Britain offer marine, road and rail access to domestic and international markets.

The office at the Southampton port offers historic significance, looking out onto the birthplace of the iconic Titanic.

Iesis Urban spaces who create office workspaces that are not only vibrant, but which work on a functional level to improve productivity and wellbeing were asked to consult on a scheme for new desking over two floors. With experience in office and residential refurbishment, space planning and design, furniture supply, design and build, and in Cat A and Cat B projects, our highly qualified trade professionals and suppliers were able to deliver this transformational project on time and within budget.

We worked alongside Iesis Urban spaces for Associated British Ports Ocean Gate HQ in Southampton. After a showroom visit and with the Architects ABP needed a manufacture that offered a flexible and cost-effective approach to a Sit Stand bench and desking solution that also offered a bespoke solution where required. We were awarded the contract supplying Progress Plus Electrical Sit Stand desking, Harmony Bench, four ranges of special storage cupboards all with bespoke MFC tops.

The project was completed over two phases and the Client and Architect was very keen to work again with Iesis Urban Spaces and Elite Office Furniture after the success of the first phase.

**CLIENT**  
Beeswax Dyson Farming

**LOCATION**  
Lincoln, UK

Elite were engaged by APSS, appointed by Beeswax Dyson Farming to convert an estate house into modern commercial offices. The project included the installation of a mezzanine floor and glass staircase in the reception area and glass partitions to create offices.

With a brief that asked for vibrant furniture to complement the contemporary space, i-sit task chairs were supplied for use in the main office, alongside Progress Height-Adjustable desks and the kitchen area used during lunch breaks was furnished with Piazza tables and Bill stool and chairs.

The client was extremely happy with the end result and the building has been transformed into an amazing office space, with the most breath-taking views across Lincolnshire.

**CLIENT**  
Berry Gardens

**LOCATION**  
Kent, UK

This project consisted of a £4million complete office fit-out of a 5000m<sup>2</sup> fruit farm. Having worked very successfully with Berry Gardens five years previously we were asked to provide the furniture for their project which was to be a state of the art 5000m<sup>2</sup> £4million new build which would be the largest soft fruit farm facility in Europe.

The brief was to keep existing furniture and offer some playful modern areas so the staff can enjoy the space more, showing the Berry Gardens corporate colours of green and red.

Working in conjunction with the architect we provided plans, showroom visits, quotations and installation services making sure the client was supported from cradle to grave.

A variety of products were used to help Berry Gardens achieve the new look they wanted, some of these included Kassini desks paired with Team Plus Mesh operator chairs, pedestals and storage units. Aerofoil meeting tables, Escape lounge chairs, Multiply stools, Ben breakout chairs and Cascara Lounge chairs.

**CLIENT**  
Bühler

**LOCATION**  
London, UK

Working with Form Workplace Solutions on a small but stylish office furniture project we were given a brief which was to supply furniture for break out spaces in the office and the atrium area.

By using the Alto Bench mixed with Bob stools and meeting tables combined with Ben chairs a space was created resulting in a great place for the client's staff to socialise, work and eat away from the desk areas.

We also provided two meeting room areas creating a smarter appearance but still with a contemporary feel by using our Reflex meeting tables and Tempo chairs.

# Churches Fire

COMPLETE FIRE CARE

## CLIENT

Churches Fire & Security

## LOCATION

Hampshire, UK

After previously working with Kiwi Design, Churches Fire & Security selected the Dorset based interior fit-out contractor to design, build and fit out further ground floor office space, as an extension to their existing premises.

There were three areas to furnish, including an open plan office space, meeting rooms and breakout/kitchen area. Kiwi selected Elite's Linnea double benches to provide a 40 position workspace with Harmony benches and Bill stools for flexible working.

The boardrooms were furnished with Reflex and Linnea tables and a third meeting room incorporated Fliptop tables for adaptability when meeting requirements change.

Finally, the breakout area was designed to provide staff with multiple options for agile working and lunchtimes. This included Elite's bar tables and stools, Cascara loungers with coffee tables, Loco benches with bench seats and High Back Evo Plus seating configured as booths.

Combined, the design and blend of furniture provides a professional, yet relaxed workspace for their staff to enjoy.

**CLIENT**  
Claritas Solutions

**LOCATION**  
Wetherby, UK

Working very closely with our Dealer Partners Absolute Commercial Interiors we came up with an office design and fit out project for Claritas Solutions, an I.T. services company in West Yorkshire.

ACI designed a creative but professional and functional space split into various zones, from separate meeting rooms to seated booths, raised tables, and a lounge area to play the X-box. ACI utilised Lux benching range and Vida chairs for the general office environment.

Employees now have a fantastic environment that they can enjoy spending time in. Their new interior and layout also offers the level of safety and security that their previous offices lacked, and this paired with the stylish interior has helped them to secure some fantastic client wins that have helped the company go from strength to strength.

**CLIENT**  
Crisp Thinking

**LOCATION**  
Leeds, UK

Crisp Thinking were originally located in an old converted church just on the outskirts of Leeds City Centre. The building was slightly dated and there was a need for change to provide their staff with a more functional, yet inspiring environment to work in. The location would also serve as an important branding tool for Crisp with new and existing clients.

The new premises required a design that created a practical and productive atmosphere, one that existing staff would be proud to work in and that would attract new talent and clients.

Crisp approached Absolute Commercial Interiors and challenged them to create a design that met the brief. After consultation and visits to both our factory in Yorkshire and the showroom in London, the decision was made to use Elite's Progress Sit-Stand Workstations throughout the office. Crisp felt that giving their staff the option of being able to work from a seated or standing position, would introduce a healthier, more modern way of working.

The client opted for Elipsa lounge chairs with a wooden swivel base and contrasting fabric, bringing a premium feel to the boardroom and in-office meeting spaces. Bill stools with a Walnut stained leg were used within the breakout area to complement the look a feel of the kitchen. The elegant entrance lobby was further complemented by the use of the Cascara High Back Lounge Chairs with a walnut frame and black leather, deep buttoned shell adding a touch of style and sophistication.

Crisp's already reputable brand was represented throughout the design, producing an office that mirrored the companies values.

**CLIENT**  
East Riding of Yorkshire Council

**LOCATION**  
Beverley, UK

K Block is an amalgamation of three historic properties, located within the multi building complex of Beverley's County Hall. CBE were approached following the internal refurbishment and remodelling works carried out by Houltons. All parties involved worked together to deliver the East Riding's vision of making effective use of their space.

**STOKE  
BY NAYLAND CAMPUS**

**CLIENT**  
Focus School

**LOCATION**  
Stoke-by-Nayland, Colchester, UK

During the 2016 summer holidays a large refurbishment was carried out at Focus School Stoke By Nayland Campus.

A dramatic transformation took place in the school which included reconfiguration of the classroom layouts to embrace Self Directed Learning (SDL), new furniture throughout the school, a new staff hub area and much more. As part of a new SDL program, the classrooms have been split into collaborative zones, semi-collaborative zones and focused zones, which have enabled the students to choose their learning environment depending on how they learn best.

Colour was a key design element used in the refurbishment and an invigorating pallet of bright green, yellow and blue has been used throughout the school. The completed look is modern and fun, inspiring and motivating the students to put all they have got into their education.

The staff have been treated to a first class area which features a kitchen and break out zone, a collaborative zone for team discussion, seating booths for lesson preparation and even a shower!

Zentura provided complete management of the refurbishment project, from initial space planning through to furniture supply and installation, and this was completed within budget and in a very tight timeframe of only 6 weeks.

**CLIENT**  
Fox International

**LOCATION**  
Essex, UK

Fox International is firmly established as one of the leading tackle manufacturers in Europe. With the company continuing to grow, now with a global reach, Fox International identified the need to acquire new premises in Brentwood to accommodate the expanding team.

Eden Projects, based in Kent introduced Elite from an early stage, meaning we were able to work with Eden Projects and the client at the point of design and concept, right through to the specification and fit out of the office.

From the initial designs and showroom visits, Elite were selected to furnish a majority of the furniture within the building. Finished to mirror their well-recognised logo, the use of black and orange were combined to create a stylish and modern workplace.

Elite's Linnea range was selected for the main office, with a combination of rectangular and 120 degree workstations and Progress Height Adjustable desks were selected for the manager's offices. To accompany the desks, we teamed acrylic frosted screens with a black trim matching the black edging on the desks. A number of products from our seating range was selected for use within the office and meeting spaces, including Vida task chairs, Vice Versa visitor chairs, Escape stools and Hangout Booths.

GLEESON

RECRUITMENT  
GROUP

**CLIENT**  
Gleeson Recruitment

**LOCATION**  
Birmingham, UK

Gleeson are one of the fastest growing recruitment businesses in the midlands and specialise in the recruitment of staff in the following sectors nationwide, Accountancy & Finance, Engineering & Manufacturing, Human Resources, IT, Procurement & Supply Chain, Transformation and Executive Search. They engaged Elite after making the decision to relocate. Their rapid growth meant that their current office setup was not making the most of their dynamic team and they were spilt over several cellular office spaces.

The new office needed to bring the team together in one collaborative space and allow them to thrive and excel in their field. The directors wanted to create a space where the staff would be inspired to work and as such helping them with both retain and attract new staff. The space catered for their existing staff numbers but also allowed for a potential increase of 50%.

We worked with the client on different layouts and concepts and they fully embraced the new ways of working and the agile working environment model, using a single open plan office area for all staff including directors, non-fixed desking positions, digital lockers and Hotbox individual storage solution. Along with a creative office space including a retro telephone box for making sensitive calls, they also included a table tennis table in the office, Xbox in the Astro-turfed breakout area along with a traditional boardroom and exciting meeting space.

**CLIENT**  
Griffiths & Armour

**LOCATION**  
Liverpool, UK

Working closely with Aztec Interiors, we were approached to support Griffiths & Armour with designing their new waterfront headquarters in Liverpool. The space required a contemporary and inspiring environment with meeting rooms, breakout spaces and boardroom to offer a workplace that engaged with their employees.

After initial consultations, the client visited our head office and showroom to explore our products.

To ensure the client would be satisfied after installation, samples were issued for them to test the products with their workforce and shortly after an assortment of our products were selected to reflect the heritage, as well as the future vision of the company.

The final installation successfully utilised the space available and transformed how Griffiths & Armour’s teams were internally as well as interacting with their visitors and customers.

# KUONI

**CLIENT**  
Kuoni

**LOCATION**  
London, UK

Kuoni’s new offices at 1 Alie Street, London was triggered due to a merge of JTB Europe & Kuoni. Alie Street provided them with the space to accommodate the 200+ staff, as well as the desire to embrace new ways of working with an abundance of communal spaces for team collaboration.

Francis Hunter Project Management and Maze Workplace were appointed to support Kuoni’s furniture requirements and after an intense tender process, Office Furniture London were appointed as main furniture supplier to the project.

Working closely with the professional team, a large proportion of the furniture was selected from Elite’s portfolio including Vida Task Chairs, Linnea Meeting Tables, Storage, Norden Breakout Chairs, Alto Benches, Bob Stools, Luma Lounge Chairs as well as a large selection of Evo Plus High Back sofas to accommodate multiple uses from quiet meeting booths to café breakout seating.

**CLIENT**  
Leeds Arts University

**LOCATION**  
Leeds, UK

Having successfully completed design and solution consultation, Elite were appointed to supply the loose furniture and fittings for the new building extension to the main campus at Leeds Arts University.

The new building comprises five floors to accommodate a multitude of activities and disciplines including Staff and Academic Offices, collaboration and quiet study spaces, art gallery, multiple meeting rooms, break out and bistro areas, student teaching spaces and a Cafe / Atrium.

With a real emphasis on design, texture and flexibility, Elite's Design Team created numerous 2D floor plans and subsequent 3D drawings and revisions to allow the Client to visualise the final solution. This was an ideal tool as it enabled the Client to engage with Staff and Students to provide a solution to include their thoughts.

Delivery and installation was successfully completed within budget over a three week period.

**CLIENT**  
MCE Insurance

**LOCATION**  
Northampton, UK

APSS had been working with MCE for a couple of years on various projects. Their latest project involved the interior layout and design of their new office and factory.

The project required full mechanical and electrical wiring, installation of glass partitions to create meeting rooms, complete decoration including flooring and branded wall decals and furniture supply, for which Elite were engaged with.

A number of Elite's products were selected to complete the design including Matrix desks, Vida task chairs, Zen bistro chairs, Cascara lounge chairs, Fliptop and Reflex meeting tables and Retreat booths. Together the products and specified finishes mirrored the company's identity.

The works were carried out during an 8-week schedule, with further works to follow on their second factory/office building.

**CLIENT**  
Midfix

**LOCATION**  
Nottingham, UK

MIDFIX, an innovative and fast-growing company based in Nottingham were running short of space in their existing buildings. An ideal opportunity arose for them to take on an additional 27,000ft² building on the same estate.

They engaged with Accent Office Interiors to deliver a holistic building renovation and fit out that now hosts their growing design, innovation and business development teams. A number of ranges from Elite's portfolio were selected to complement the design Accent's team produced including Matrix desking, i-sit, Vida task chairs and Multiply Wood breakout chairs.

The project was delivered on time and within budget and has resulted in a visible rise in productivity following occupation.

"The whole project was run with zero friction and any challenges that arose were dealt with a 'can-do' attitude, making the whole journey a very refreshing experience."  
Adrian Fowler, MD

**CLIENT**  
Odyssey Systems

**LOCATION**  
Stockton-on-Tees, UK

In order to modernise their working environment and create an impact for visiting clients, Odyssey engaged with Elite to meet their required specification.

After initial meetings, it was decided that the Progress range of bench desking was the best solution due to its contemporary feel and features, such as the full gas lift height adjustment. These were teamed with the Mix chair, offering a range of ergonomic functionality and the option to move away from a traditional black mesh look.

To further enhance the feel the client went for the Retreat booth seating and leather Cascara high back chairs with deep buttoning. The finishes consisted of white for the desktops and frames, the screens were finished in white metal work with blue acrylic panels and white frames for the Mix chairs complemented with white leather seat pads and blue mesh. The breakout seating consisted of a mixture of blue and white leather.

Overall, the furniture married well with the ultra-modern technology that was also being installed, creating a functional and aesthetically pleasing environment that really represents this brand to the highest standards.

**CLIENT**  
Product Compliance Specialists

**LOCATION**  
Buckinghamshire, UK

This was our very first project with Concept Corporate, so it was a pleasure to work on a project with such a fun brief where we able to deliver high quality products on time with no issues, leaving the customer very pleased with our level of service.

The brief was to provide smart but exciting spaces where their clients can use and capitalise on the interesting spaces within the building they were occupying. This was achieved by creating break out areas wisely to allow light and colour to work with the building giving a modern but classy appearance.

A variety of products were used on the project in order to meet the clients brief, including our Alto Bench partnered with Bill stools, Matrix desks with Vida task chairs, Flitop meeting tables with Tempo meeting chairs and Ben breakout chairs.

*"Everyone is in love with our new office, it's exactly what we wanted and needed, it was ahead of schedule and on budget."*

**CLIENT**  
Sheffield Hallam University

**LOCATION**  
Sheffield, UK

Having successfully completed a design and solution consultation, Elite was appointed to supply all loose furniture and fittings for the purpose-built Advanced Wellbeing and Research Centre. The new building comprises five floors to accommodate many activities including staff offices, the boardroom, multiple meeting rooms, breakout and bistro areas, student classrooms, laboratories, medical and patient rooms and a bespoke 90 person presentation suite.

With a real emphasis on wellbeing, Elite’s Progress Plus range of electronic sit-stand desks was the ideal solution for all desk positions allowing users the flexibility to vary how they work throughout the day.

Coupled with a variety of soft seating elements and meeting pods, Staff are encouraged to interact and engage away from their desks to help share information and collaborate.

As well as products already available from the Elite portfolio, we were tasked with the challenge of designing a bespoke tiered seating area to create a theatre-style presentation suite for lectures. Elite successfully developed, manufactured and installed a solution that incorporated the Enna design achieving an elegant and formal environment.

Elite also sourced and installed medical equipment to allow for patient examination, consultation and interaction within a medical environment.

Due to delays with construction, Elite happily accommodated the institute’s request to delay the delivery and install schedule, allowing the storage of products for up to a month. The project was successfully delivered within budget and installed in phases over three weeks.

CLIENT  
Simply Business

LOCATION  
Northampton, UK

As one of the UK’s biggest commercial insurance brokers with a bold online presence, Simply Business engaged with Rhino Interiors for a complete interiors re-fit and refurbishment of their impressively-scaled yet uninspiring building in Northampton.

They desired a vibrant and dynamic transformation to mirror their branding and website. With an enviable reputation as a great company to work for, they wanted to develop an energetic culture to reflect this, fully focused on their employees, giving them engaging and eye-catching spaces to work.

Rhino produced a unique, leading-edge environment including a bespoke, fully flexible auditorium with interactive screen and café zone utilising a striking steampunk theme, finished with our Bill bar stools.

Rhino fully incorporated agile working principles into the design strategy, using Harmony benches, Retreat seating booths and Evo Plus modules to make the workspaces adaptable and fluid, where staff can move from one space to another and work in the environment they prefer, and with no barriers between the ‘social’ and ‘work’ areas, employees don’t feel any division between the workforce.

**CLIENT**  
Table Tennis England

**LOCATION**  
Milton Keynes, UK

On the move to their new office in Milton Keynes, Table Tennis England selected JPA Furniture to plan and furnish their new premises.

An important element of the project was for JPA Furniture to select items from reputable, ethical and sustainable supply chains, achieving a commendable SKA fitout rating for their client.

Additionally, an audit was carried out of existing furniture items, allowing JPA to rehome redundant task chairs and storage at no charge back into the community, saving charitable organisations valuable funds.

In order to help Table Tennis England visualise what the finished design would look like, JPA's team produced 2D plans and 3D renders incorporating a colour scheme of red, white and blue to complement the clients brand and bring the space together to reflects the organisation's culture.

During the furniture selection process, Elite's Flexi range of desks was deliberately chosen as it would assist the client in the future should their office requirements change, due to the ease of reconfiguring the space with the range's slimline frame.

A cheeky nod to this multipurpose space and active working sees the inclusion of a 2018 World Cup Table Tennis Table, which doubles up as a in-office meeting table when required.

The project achieved the brief of creating a more dynamic, engaging and productive office space.

# UNiDAYS

**CLIENT**  
UNiDAYS

**LOCATION**  
Nottingham, UK

UNiDAYS approached Proici to take on the development of their new, recently purchased Head Office. Built in 1907, the 6-storey building was in a dilapidated state and required a full renovation to create a contemporary office, capable of accommodating 350 staff.

Fortunately, the building still harboured many of its original features and Proici worked to create a harmonious balance between the natural architectural character and contemporary furnishings.

Following extensive works to recondition the building into a safe and secure space, the third and fourth floor were designed to incorporate offices, meeting rooms, meeting booths, breakout spaces, teapoint and dining areas and WC environments, which is where Elite were introduced to provide furniture solutions that supported UNiDAYS aim to create a practical, yet modern environment for their staff. This included the use of Vida task chairs at workstations, Harmony and Loco benches teamed with Bill seating for diverse meeting spaces and Reflex managers desks. Products were finished to mirror the vibrant themes running throughout the office space.

Considering the size and scale of the project and the result of their meticulous planning, we were not surprised when Proici were selected as a finalist at the 2017 FIS Awards for Design & Contractor Installation over £1m category.

**CLIENT**  
Virgin Trains

**LOCATION**  
York, UK

APSS were appointed by Virgin Trains East Coast to redesign and fit their offices in the centre of York. The designs were presented and refined over a number of weeks to suit the customers objectives and budget.

The refurbishment took place over a 20-week period and included 3 floors of open plan office space, individual offices, meeting rooms, a boardroom and staff areas.

APSS selected a number of Elite products to furnish the areas, including Optima Plus desking to manage the complex cable installations, Segment soft seating and Escape lounge chairs for relaxed breakout areas and High back Evo booths for introducing agile working methods.

The products selected from Elite's portfolio were finished to represent the iconic Virgin brand that resonated throughout the offices.

**CLIENT**  
White Horse Machinery

**LOCATION**  
Harrogate, UK

White Horse Machinery recently moved to an exciting new location on Hornbeam Park in Harrogate. This industry-leading business strive to stay one step ahead of the game and offer their customers the best experience on the market.

To enhance this, Absolute Commercial Interiors partnered with White Horse to transform part of their new premises into a modern and branded office space, working closely on the project, our Lux Benches, Vida Chairs, Bill stools and Cascara seating were used as they really provided the look that ACI and the client wanted to achieve. Featuring an industrial style throughout to keep the interior in-keeping with the rest of the warehouse. We intertwined the brand's colours with their new interior to create a contemporary and stylish office featuring an open plan workspace, collaborative meeting area and breakout space. Their bespoke and productive office interior now supports White Horse Machinery in offering the very best in terms of products, technology and customer service.

## UK DISTRIBUTION

By partnering with prestige dealers offering national coverage within the UK, we are proud of our networks ability to distribute products efficiently with as little impact on the environment as possible.

We are particularly proud of our heritage within the Northern Powerhouse, most recently supported within the governments manifesto, which aims to boost the economic growth of major Northern cities, alleviating the UK's economic reliance on London, allowing the UK to advance its position within the global market.

Located in Yorkshire, next to the M62, we have instant access to a key links to these major cities including Manchester, Leeds, Hull, York and Sheffield.

## GLOBAL REACH

We are committed to developing our global reach, allowing our customers and clients to also benefit from our efforts. Whilst we aim to support our customers' requirements across the globe, we are conscious of retaining our attitude to the quality of our products, the way we distribute these efficiently and the personal service our customers receive. This includes the emphasis on our sourced materials continuing to adhere to bodies such as PEFC (Programme for the Endorsement of Forest Certification) and selecting exportation partners with similar environmental and sustainability goals.

Our network within the global economy, which now spans four continents, indicates our ongoing progression and we have plans to extend this network through 2017 and beyond.
