

Cubeform

MODULAR STORAGE

Cubeform has been designed with modularity and flexibility as the core feature. Its modular design is ideal for dividing open plan offices into reconfigurable and flexible work zones without the need for fixed partitions. Storage boxes, lockers, drawers, magnetic whiteboards and planter boxes are optional extras that enhance Cubeform's functional nature. These options enable the product to be tailored offering flexible and adaptable solutions.

In the modern work environment, it is essential that the design of your office space reflects the organisations brand identity. Cubeform offers an extensive range of finishes for wooden and steel components enabling the overall look to be tailored and align with the corporate image.

Please refer to the price and specification guide for all available options and finishes.
