Focus

MULTI-PURPOSE SEATING

Focus is a traditional breakout chair that embraces comfort and performance. The high quality 20mm tubular four-legged frame is finished in chrome and provides a functional and robust platform for this affordable seating range. Partnered with the injection moulded seat and back, available in a choice of four vivid colours, this chair delivers a functional solution for a diverse range of applications. Like many of our breakout chairs, Focus has a ten-unit stacking ability, making it a chair that supports space saving requirements.
