SOFT SEATING BOOTHS

Hangout

SOFT SEATING BOOTHS

The concept of Hangout was developed to reflect the way in which technology and workplace habits are changing, particularly in terms of the dynamics of office areas and how they are modernising and merging into less defined, fluid areas. Within the range, a single booth offers users a calm space to work or study, have private conversations or simply relax. The double booth provides a space for both quiet contemplation and group collaboration within existing open workspaces.

Please refer to the price and specification guide for all available options.
