ENVIRONMENTAL POLICY 2022	SIGNED
JOHN HULL MANAGING DIRECTOR	

## It is our policy to:

- Comply with and aim to exceed the requirements of current environmental legislation and codes of practice.
- Minimise energy and water usage in our buildings and processes in order to conserve supplies, and minimise our consumption of natural resources, especially where they are non-renewable.
- Minimise our waste and reuse or recycle as much of it as possible.
- Purchase products and services that do the least damage to the environment and encourage others to do the same.
- Assess the environmental impact of any new processes or products we intend to introduce.
- Monitor and reduce the impact of air, water, noise and light pollution from our premises on the environment and local community.
- Ensure all employees understand our environmental policy and conform to the high standards it requires.
- Address complaints about any breach of our Environmental Policy promptly and to the satisfaction of all concerned.
- Review our Environmental Policy annually, in consultation with employees and customers.

Elite believe that all businesses are responsible for achieving good environmental practices and ensuring they operate in a sustainable manner.

We are therefore committed to reducing our environmental impact and continually improving our environmental performance as an integral and fundamental part of our business strategy and operating methods.

It is our priority to encourage our customers, suppliers and all business associates to do the same. Not only is this sound commercial sense for all; it is also a matter of delivering on our duty of care towards future generations.

## GENERAL STATEMENT

The Environmental Protection Act is a governed practice of protecting the natural environment on individual, organisation and government levels, for the benefit of both the environment and humans.

It is our aim to exceed the minimum legal requirements and provide a working environment that achieves the best possible environmental performance from our operations.

In order to achieve this, we have arrangements to continually assess the risks from our operations and provide, maintain and monitor appropriate control measures to minimise the risks identified. Responsibility for implementing this policy lies with the Managing Director who will delegate functions, as identified in our organisational responsibilities.

Employees are reminded that they have a legal obligation under the EPA, to inform their manager of risks that potentially affect our responsibilities to the environment.
