MODULAR UNITS

Segment makes a vibrant, playful statement in terms of contemporary, modular furniture. Its distinctive design allows the units to be specified to work around you and your needs. It works especially well in a fluid, multi-functional space with changing needs or compromised space. Several different shapes make up the family including square, circular, triangular, eclipse and rectangular, that are able to blend in with an array of environments. Fully upholstered to your specification the Segment range is built on a hardwood frame, cushioned with fire-resistant foam and fitted with protective feet.

Please refer to the price and specification guide for all available options.
